#### **Features**

| Order code | V <sub>DS</sub> | R <sub>DS(on)</sub> max | I <sub>D</sub> |
|------------|-----------------|-------------------------|----------------|
| STW26NM60N | 600 V           | 0.165 Ω                 | 20 A           |

- 100% avalanche tested
- Low input capacitance and gate charge
- · Low gate input resistance

#### **Applications**

· Switching applications

#### **Description**

This device is an N-channel Power MOSFET developed using the second generation of MDmesh™ technology. This revolutionary Power MOSFET associates a vertical structure to the company's strip layout to yield one of the world's lowest on-resistance and gate charge. It is therefore suitable for the most demanding high efficiency converters.
